

Portakabin®

RAPID DELIVERY
FOR START OF THE NEW ACADEMIC YEAR

"Within 6 months Portakabin had given us an up-and-running solution to a time critical problem. We're delighted with the new space, in particular having a designated SEN room. The new facilities have taken the pressure off the main body of the school and given our pupils bright and comfortable new learning environments."

Chris Everard, Director of Operations & Finance, Wensum Trust

Building use:

Classroom space including designated Special Educational Needs (SEN) room and IT suite

Project Duration:

Ordered March 2022

Installed August 2022

Handed over September 2022

No. of modules and type:

8 Portakabin Duplex Buildings

Including:

Data points

Emergency lighting

Groundworks included – foundations, connections, pathways etc.

Requirement

Due to growth of the school and sixth form, Hellesdon High School required additional classroom space to ensure it was ready for the new academic year. The Wensum Trust got in touch with Portakabin in March 2022 looking for a solution.

In addition to new classrooms, the brief included creating a designated space for pupils with Special Educational Needs (SEN), as well as an IT Suite, with space for at least 50 children and teaching staff.

Solution

The project had a tight turnaround with facilities needing to be installed and handed over ready for the start of the new school year in September. In addition to all groundwork, including new pathways, the Portakabin solution, made up of eight Portakabin Duplex buildings, saw the creation of two additional classrooms, a spacious SEN room, IT Suite including data points, as well as office space for teaching staff.

To ensure your next building project is delivered on time and on budget call us now on 0333 305 4917.
